

The Nebraska Breastfeeding Coalition is a network of individual members and organizational partners dedicated to improving the health of Nebraskans by making human milk feeding the norm via education, advocacy, and collaboration. We have been working together since 2009 to share information and partner in activities that increase human milk feeding rates across the state and support lactation providers and the families they serve.

## Supporting Lactation Providers

The NE BFC provides you with:

- Statewide **networking** opportunities in person and virtually.
- **Continuing education** to expand your knowledge of the lactation landscape.
- **Access** to new clients through the use of our online lactation support directory map.
- **Outreach** opportunities to increase diversity among lactation providers.

## Quarterly Meetings

1st Tuesday of  
February, May, August, and November

10am - 11am Continuing Education\*  
11:15am - 12:45pm Member Meeting

✨ **FREE TO JOIN** ✨

\*Optional \$40 Continuing Education Add-On  
\*FREE for IBCLC students

## NE BFC 2024 - 2025 Goals

- Increase our membership from 104 to 140.
- Maintain at least 26% racial diversity and 31% rural diversity (outside metro Lincoln and Omaha) in our membership to mirror the makeup of our state's population and ensure diverse representation.
- Host 4 Quarterly Meetings, issue 12 email newsletters, and share 100 educational social media posts.
- Mentor at least 10 women of color or rural women in their pursuit of becoming an IBCLC candidate.
- Increase the number of providers on the online directory map from 74 to 120.
- Maintain diversity on the Leadership Team from a geographic and racial/cultural perspective.
- Offer a CERP (education session) at each Quarterly Member Meeting.
- Develop a network of organizational partners to expand our support for vital Maternal Child Health issues.
- Acknowledge a minimum of ten Breastfeeding Friendly Businesses in Nebraska.
